## Turkey Burslari Scholarship

Dear Scholarships Committee,

I was born and brought up in a small village in a remote area of Pakistan. It is no less than a miracle that I am the first member in my family who has a dream of higher education and successfully achieved it. During college life, I develop my keen interest in management studies. Due to this, I did my bachelor's in business administration (BBA) and was nominated by the University for a Gold Medal because of my first-class honor. I also voluntarily worked as a general secretary in the Skills, knowledge, improvement, (ABC- Replace with your Desire name or Remove it) society for the student's improvement both in academic and non-academic activities.

During my bachelor's journey, I found the field of (XYZ- Enter your field of interest here) particularly interesting. However, I learned too many things and have a good exposure during my entire Bachelors's journey. Keeping the learning trick, I plan to pursue my further study in a diverse environment. Luckily, I got the chance and apply to for this prestigious scholarship. For me, turkey is an educational and rich cultural hub throughout the world because of the touching borders of Asia and Europe.

I am enthusiastic to attend a master's in turkey to understand the different economic concepts and their applications in a diverse environment. I have researched the program and determined that both my areas of interest and the coursework and research profile of different professors in Turkish universities have a strong match. However, the good reputation of high-quality education standards and research facilities are the factors that have motivated me to apply for my master's study under the turkey bursary scholarship.

I'm strongly confident about my research goals and objective and I believed that my work in the field of economics will contribute to academia, governments, organizations, and societies.
